

Day Skipper Power

Day Skipper Power Shore Based Course Contents.

	Page
ISPA	I
List of workbooks Sail and Power	II
Complete list of courses	III-IV
Contents	VIII
MODULE 1(a) Seamanship Power	
Maneuvering The Single Screw Under Power	1
Bow Thrusters	1-2
Stern Thrusters	3
MODULE 1(a) ASSESSMENT	4
MODULE 1(b) Seamanship Power	
Maneuvering The Twin Screw Under Power	5-10
MODULE 1(b) ASSESSMENT	11
MODULE 2(a) General Seamanship. Docking	
The Effect of Wind and Current Direction when Docking	12
Single "Docking Line" Method of Docking	12
The Docking Process; The Skipper's Responsibilities	14
Using Prop Walk when Docking	15
Tips on Docking	16
Docking Against A Fixed Dock	17
Helm's Responsibilities, When Exiting the Dock	18-19
Using Slip Lines (Or Warps)	20
Exiting from a Raft	22
Locks, Entry, Exit	22
Picking Up a Mooring Buoy under Power	23
MODULE 2(a) ASSESSMENT	24-25
MODULE 2(b) General Seamanship. Anchoring.	
Measuring the Rode	26
Bow Fitted Anchor	26
Anchor Windlass	27
Power Driven Windlass	27
Basic Requirements for a Good Anchorage	28
Shelter from the Wind and Waves	29
Room to Swing	29
Good Holding Ground for the Type of Anchor	30
Using a Trip Line	31
Depth of Water for Length of Stay	32
Know the Direction of any Current	33
Anchoring Tips	35
Anchoring Step by Step Procedure	35
Retrieving the Anchor	36-37
MODULE 2(b) ASSESSMENT	38
MODULE 2(c) General Seamanship	
This Module is provided for your information only and is not part of the Day Skipper Sail certification standard.	
Trailer	41
Trailer capacity plate	41
Trailer: Gross Vehicle Weight Rating	41
Trailer Hitch	41
Tongue Weight	41
The Boat Trailer	42
Tilt Bed Trailers	42
Fixed Frame	42
Boat Trailer Types	42

Day Skipper Power

Trailer Hitch	43
Safety Chains	43
Hooking Up	43
Towing the Trailer	43
The Steps Required to Launch a Trailer from a Ramp	43-45
The Steps to Haul Out	45
Trailer Maintenance	46

MODULE 3(a) International Buoyage System

The International Buoyage System	47
General Direction of Buoyage	47
Priorities	47
Lighted Aids to Navigation	48
General	48
Problems Arising from Atmospheric conditions	49
Others Problems Encountered when Using Lights	49
Light Locations	49
Three Categories of Lights	49
The Lateral System	50-56
Basic Buoys and Shapes. Standard Pillar Buoys	50
Bifurcation Buoys	51
Posted Command Signs or Warning Signs	52
Fog Signals	52
Day Beacons	53
Beacons in the Buoyage System	53
Center Channel Marker or Fairway Buoy	54
Isolated Danger Buoy	54
Fixed Aids to Navigation	55
Light Stations	55
Minor Lighted Aids	55
Ranges, Sector Lights	56
MODULE 3(a) ASSESSMENT	57-60

MODULE 3(b) International Buoyage System, Cont'd.

The Cardinal System	61
The Four Cardinal Buoys	62
Spar Buoys	62
Lights on Cardinal Buoys	63
Special Purpose Buoys	65-67
MODULE 3(b) ASSESSMENT	68-69

MODULE 3(c) Legal Requirements and Collision Avoidance

Small Vessel Regulations	70
Vessel Registering or Licensing, Canada and USA	70
Boating Restriction Regulations	71
International Regulations for Preventing Collisions At Sea	71
Collision Avoidance	71
Collision Bearings	72
Narrow Channels	72
Traffic Separation Schemes	73
Restricted Visibility	73
Installation of the Radar Reflector	74
Restricted Visibility	74
Conduct of Vessels In Restricted Visibility	75
Sound Signals in Restricted Visibility	75
Maneuvering and Warning Signals	76
Vessels in Sight of One Another in a Narrow Channel or Fairway	76
Intentions are not understood	77
Day Shapes	78
Lights on Vessels Under 50 Meters	79
Lights on Vessels over 50 Meters	79-80

Day Skipper Power

MODULE 3(C) ASSESSMENT	81
MODULE 3(d) Tides and Currents	
Types of Tides	83
Tidal Range	84
Chart Datum	84
Tide Tables	85
Sample Tide Tables	86
Currents	87
Current Tables	88
Current Graph	89
Sample Current Tables	90
MODULE 3(d) ASSESSMENT	91
MODULE 4 Weather	
Basic Weather	92
Sources of Weather Information	92
Interpretation of Weather Forecasts	93-94
Other Hazards	95
What to Expect from Different Weather Patterns	96
Cold Fronts	96-98
Warm Fronts	98-100
Stationary Front	101
Occluded Front	101-103
High Pressure Areas	104
Low Pressure Areas	104
Wind Scale	105
MODULE 4 ASSESSMENT	106
<i>Barometer Graph Insert (for copying and use)</i>	
MODULE 5(a) Passage Preparation	
Preparation	108
Safety Equipment Check Out	108
Vessel Checkout	109
Daily Checks	109
Float or Trip Plan	110
Additional Equipment Requirements (Schedule 1)	111-112
Sample Float or Trip Plan (<i>Schedule 2 for copying and use</i>)	113
MODULE 5(a) ASSESSMENT	114-115
MODULE 5(b) Passage Planning	
Basic Navigation Tools and Instruments	116
Nautical Charts	116-118
Navigation Publications	118
Plotting Your GPS Latitude and Longitude on the Chart Grid	119
Reading off the Latitude and Longitude of a Known Position	119
Using the Compass	120
The Hand bearing Compass	121
Fixing, or Finding Your Position	121
Converting from Degrees Compass to Degrees True	122
Chart Work	123
Using the Douglas Type Protractor	123-124
Laying Off a Course From your New Fix	125-126
Ship's Compass	127
Using an Address to Get You Home	127
Planning the Passage Notes	128
MODULE 5(b) ASSESSMENT	129
<i>Logsheets insert (for copying and use)</i>	
MODULE 5(c) Piloting Tips	

Day Skipper Power

Piloting	131
Using Transits	131
Using Back Bearings	132
Using Danger or Clearing Bearings	132
Using Turning Points	133
Using Your Depth Sounder	134
Using a Known Safe Course	134
Using natural features as Ranges	135
Entering a Harbor	135
Navigating around Hazards	136
Don't Miss the Mark	137
Visual Depth Indicators	137
