

Yachtmaster Offshore Sail

Yachtmaster Offshore Sail Shore-Based Course Contents

	Page
ISPA	I
List of Workbooks Sail and Power	II
Complete Range of Sailing Courses	III-IV
International Certificate of Competency Registration Form	V
Contents	VI-XI
Seamanship Sail 3	
Module 1(a)	
Tuning The Rig	1
Standard Cruising Tune	1
When Sailing Upwind in Moderate Winds	2
Racing Tune	3
Checking The Rig For Passage Making	3
Mast	3
Standing Rigging Checks	4
Running Rigging Checks	4
Chafe Prevention	4
Check The Sails	5
Storm Sails	5
Sail Repair Kit and Bag	6
Boom Preventer	7
Boom Brakes	7
Self Steering Systems	8
Auto-Pilots	8
The Electronic Pilot	8
The Electric Problem	9
Windvanes	9
How It Works	9
Setting the Sensor	10
Balancing the Boat	10
Boat Characteristics	10
The Points of Sail	10
Windvane Construction	11
Auto-Pilot or Windvane?	11
Performance	11
The Choice	11
The Size of the Boat	12
Combining an Auto-Pilot and a Windvane	12
Windvane and Swim Ladder Location	12
MODULE 1(a) Assessment	13-15
Module 1(b)	
Spinnakers	16
Tri-Radial	16
Radial Head	16
Starcut	16
Spinnaker Weight	16
There Are Three Basic Methods for Flying a Spinnaker	17
Method 1	17
Set Up	17
Step 1 – The Setup – 3 people A B & C	17
Step 2 – The Hoist	18
Method 1: Gybing The Spinnaker	18
Steps	18
Method 2: Moving The Pole “End For End”	19
Set Up	19

Yachtmaster Offshore Sail

Method 2: Hoisting	20
Method 2: Gybing	20
Method 3	21
Set Up	21
Method 3: Hoisting	22
Method 3: The Gybe	23
Handling The Pole When Dip Pole Jibing	25
Outboard End of the Pole	25
Dousing the Spinnaker	26
Turtles And Socks/Sleeves	27
Preparation To Hoist (Turtle And Sock)	27
Hoisting the Spinnaker	27
Dousing the Spinnaker With Socks/Sleeves	28
Trimming The Spinnaker	29
Spinnaker Pole	29
Pole Adjustment for Different Conditions	29
General	30
Wind	30
Heavy Weather	30
Rounding Up	30
Rounding Down	30
Spinnaker Wraps	31
The Spinnaker Net	31
Over Boom And Under Boom Sheeting	31
MODULE 1(b) Assessment	32-34
Offshore Sail	
Module 1(c)	
Safety Of The Crew, The Vessel And Equipment	
As Wind And Sea State Values Increase	35
Crew Safety In Heavy Weather	35
Jack Lines	35
Method 1	35
Method 2	35
Using A Harness Properly	36
Preparing The Vessel	36
Navigation	36
Plan of Action	37
Beating Against The Wind And Sea	37
Heaving To	37
Once You Are Hove To	37
Reefed Mainsail	38
If Using A Trysail	38
Running With The Wind And Sea When Sea Room Is Available	38
Lying A Hull	39
Warps	39
Drogues	39
Speed Limiting Drogue	39
Uses For Drogues	40
Sea Para Anchors	41
Para Anchor Deployment	42
Storm Damage	42
Dismasting	42
Lightning	42
MODULE 1(c) Assessment	43-45

Offshore Seamanship

MODULE 2(a)

Clothing	46
Personal Gear	46
First Aid Manual And First Aid Kit	48
Topical	48
Allergic Reactions	48
Pain Control	48
Nausea	48
Earache	48
Antibiotics	48
Indigestion	48
Diarrhea	48
Supplies	48
Cleansers	48
Instruments	48
Dressings	49
Miscellaneous	49
Optional	49
Special Topics	49
Seasickness	49
Burns	49
Wounds	49
Sunburn	50
Provisioning The Vessel	51
Estimating The Amount of Food Carried	51
Storage	51
Keep a Storage List/s Showing the Position of Every Item Onboard	51
Waste Of Essential Fuels	52
Fresh Fruit and Vegetables	52
Vegetables	52
Fruit	52
If It Needs A Fridge Or Freezer, Don't Carry It	53
Breakfasts	53
Lunches	53
Additional Items	53
Don't Forget	53
Provision List	54
Menu	55
MODULE 2(a) Assessment	56-57

MODULE 2(b)

Vessel And Equipment Checks	58
Hull	58
Pumps, Drains and Water-Tightness	58
Steering	58
Lifelines	58
Stowage	58
Water-Tightness	58
Companionway	58
Instruments	59
Ground Tackle	59
The Power Plant	59
Additional Equipment	59
Hand Tools	60
Rigging Spares	60
Engine, Transmission and General Spares	60
Maintainance Log	61
Tips For Preparing Your Own Boat For Offshore	61
Emergency Equipment	62

Yachtmaster Offshore Sail

EPIRB Testing	62
Liferaft	62
Features of a Good Quality Offshore Liferaft	62
Inflatable Liferafts Must be Installed Properly	63
The Importance of Servicing	63
Liferafts Should Contain the Following Equipment	64
Emergency Grab Bag Contents	64
International Distress Signals	65
Using the VHF And/Or Digital Selective Calling Radio	65
Mayday Calls	66
Crew Or Vessel In Immediate Danger	66
Abandoning Ship Into A Liferaft	67-68
Helicopter Rescue	68
Watch Keeping	69
Watch Duties	69
Organised Watches Should	69
A Three Watch Rotation Works	69
Search and Rescue	70
Stop and Listen	70
Look To Find	70
Combine The Spotters Onboard To Be Effective	71
Search Patterns for Pleasure Craft	71
Sector Search	71
The Parallel Track and Creeping Lines	72
Shore Line and Barrier Search	72
MODULE 2(b) Assessment	73-76
Module 3(a)	
Radar	77
Terms Used	77
Radar Beam	78
Fundamental Set Up Procedures	78
Guard Zones	78
Types Of Targets	79
Reflective And Deflective Surfaces	79
Target Detection In a Smooth Sea With Radar Range	
Scales Set At Less Than Three Miles	79
Factors Affecting Performance	80
Equipment	80
Atmospheric	80
Atmospheric Cont'd	81
Sea State	81
Range Settings	81
Human Error	81
Radar As a Navigational Aid	82
Radar Using A Fixed Azimuth And Relative Bearings	82
Radar Interfaced With GPS	83
Electronic Bearing Marker (EBM) OR	
Electronic Bearing Line (EBL)	84
Plotting The Information On A Chart	84
1. Dealing With Relative Bearings	84
2. Dealing With Electronically Generated Information	84
Finding A Position Using Range Rings or	
Variable Range Marker (VRM)	85
Using VRM and VBL Together	85
Using Radar For Collision Avoidance	86
Plotting On A CRT Radar Screen	86
Collision Course	87
Maneuvering Board (Plotting Sheets)	88
MODULE 3(a) Assessment	89-91

Yachtmaster Offshore Sail

Advanced Navigation

MODULE 3(b)

GPS	92
GPS Configurable Windows May Display the Following Information	92
Viewing the Satellites	93
Accuracy May Be Compromised By	93
In The Diagram Below	93
Reading Your Position	94
Waypoints	94
Using Waypoints	95
Velocity to Destination	96
Plotting Your Position Using GPS	96
Plotting Your Position Using a Web of Distance and Bearings	97
Plotting Your Position Using Distance and XTE Ladder	97
To Identify an Object On the Ground	97
Using the Man Overboard (MOB) and the Mark Functions	98
Other Screens May Be Available That Will Provide	98
MODULE 3(b) Assessment	99-101

Offshore Weather

MODULE 4

Weather Radio Facsimile	102
High Seas	102
Base Maps	102
How to Read the Weather Fax	102
Standard Abbreviations	102
Fronts	103
Squall Line	103
Ridge	103
Trough	103
Frontolysis	103
Frontogenesis	103
Stationary Front	103
Occluded Front	103
Warm Front	103
Cold Front	103
Low & High Pressure Systems and Miscellaneous Key Terminology Used	104
Extra Tropical Low	104
Low Pressure	104
High Pressure	104
New	104
Rapidly Intensifying	104
Freezing Spray	104
Categories of Freezing Spray/Icing	104
Fog	105
Dense Fog	105
Sea Fog	105
Station Plot	106
Conventions Used With Warnings for Extra Tropical Systems	106
Complex Gale/Storm	106
Developing Gale	106
Developing Storm	106
Gale	106
Storm	106
Small Craft Advisory	106
Conventions Used With Warnings for Tropical Systems	107
Hurricane	107
Tropical Cyclone	107
Tropical Depression	107

Yachtmaster Offshore Sail

Tropical Storm	107
Typhoon	107
Seas	108
Combined Seas	108
Primary Swell Direction	108
Significant Wave Height	108
Swell	108
Miscellaneous Terminology	108
High Seas	108
Offshore Waters	108
Upper Air 500-MB Charts	109
500-mb Analyses	109
Note: 6-Hour 500-mb Forecasts	109
24-Hour 500-mb Forecasts	110
36-Hour 500-mb Forecasts	110
48-Hour 500-mb Forecasts	111
96-Hour 500-mb Forecasts	111
Surface Analyses	112
Surface Analyses. Cont'd	113
Surface Analyses. Cont'd	114
48-Hour Surface Forecasts	114
96-Hour Surface Forecasts	115
Sea State Charts	115
Sea State Analysis	116
48-Hour Wind & Wave Forecast	117
48-Hour and 96-Hour Wave Period & Direction/Ice Accretion Forecast	118
Regional Charts	119
Regional Sea State Analysis	119
Regional 24-Hour Surface Forecast	120
Regional 24-Hour Wind/Wave Forecast	121
Oceanographic Operational Charts-Sea Surface Temperature (SST)	121
Tropical Revolving Storms	122
Inter-Tropical Convergence Zone (ITCZ)	122
Tropical Revolving Storms	122
The Warning Signs for Tropical Revolving Storms	122
Tropical Revolving Storm Areas	123
South Indian Ocean	123
In the Northern Hemisphere	124
In the Southern Hemisphere	124
Action To Take To Avoid an Impending Gale, Storm or Hurricane	124
When Radio Warnings Of a Storm's Position And Track Are Received, an Allowance For Error In The Forecast Position And Track May Be Made As Follows	124
Rules For Vessels Navigating In The Vicinity Of a Northern Hemisphere TRS	125
Sources Of Weather Offshore	127
Weather Routing Service	127
Your Own Synoptic Charts Can Be Made Up From Information Provided By	127
Abbreviations	128
Pilot Charts	129
Reading The Wind Rose	129
Example	130-131
MODULE 4 Assessment	132-140
